## GOVERNMENT TO SETTLE STRIKE IN NEW YORK

Washington, Jan. 10.—The New York harbor strike has been referred to President Wilson in Paris. He has been advised by cable of the serious situation. At the White House word was expected from him soon, tending to relieve the situation.

New York, Jan. 10.—Tug and ferry boat men today refused to agree to a 48-hour armistice in their strike, which has tied up New York harbor.

The railroad administration asked the strikers to enter into an armistice, so that food and fuel could be brought into the city and ocean steamers, now lying in the lower bay could be docked.

Washington, Jan. 10.—The government will step in to settle the New York harbor strike, unless boat owners and marine workers get together quickly.

Just how the federal authorities propose to intervene is not revealed. But they have made it plain that they do not propose to see New York in the grasp of a meat, coal or food famine and New England and other coastal districts suffer from a prolonged strike.

Nor do they propose to have army work disrupted through labor differences.

A hint of the possible course of settlement—commandeering of tugs and manning them with navy men—was so in the New York report that such action was sanctioned in the case of munition ships, should they need more lightering than was available.

The army, thus far, has not suffered in its activities. This is due to the fact that the embarkation service under Major General Franklin Hines has a system of its own. There is no assurance, however, that all army cargo carriers can be handled satisfactorily if the strike continues.

Government leaders seeking an adjustment of the trouble, were hopeful that meetings scheduled in New York this forenoon, would be fruitful of some scheme of adjustment. But it is likely the government remedial plan will be used if tonight's meeting appears hopeless of amicable settlement.

## ROOSEVELT ESTATE ESTIMATED AT HALF MILLION DOLLARS

Oyster Bay, N. Y., Jan. 10.—Colonel Theodore Roosevelt's will, made in 1912, was read to members of the family at Sagamore Hill Thursday and probably will be filed with the surrogate of Nassau county today. Although the size of the former president's estate was not made known, it was understood to amount to not more than \$500,000.

According to Attorney George C. Cobbe, of New York, who read the will, the document provides that the entire estate, with the exception of the family silver and plate, shall be held in trust for the widow during her life, and gives her power to dispose of it by will as she sees fit. In the event she leaves no will, the estate is to be divided in equal parts among the children.

The family silver and plate, Mr. Cobbe said, are to be divided among the children, as is a \$60,000 trust fund left to Colonel Roosevelt by his father.

The will named as trustees Lieutenant Colonel Theodore Roosevelt, Jr., and W. Emlin Roosevelt, a cousin of the colonel.

Mrs. Roosevelt, who was unable to attend the funeral Wednesday, visited the grave in Young's Memorial cemetery Thursday. She will leave Sagamore Hill for a brief visit to Colonel Roosevelt's sister, Mrs. William Sheffield Coles, at Farmington, Conn.

Hundreds of visitors thronged the cemetery yesterday and it was learned that one of the reasons for the stationing of a military guard of honor about the grave was to prevent "souvenir hunters" from carrying away the floral tributes.

As the visitors stood about the grave Thursday afternoon an army signaller from Quentin Roosevelt field at Mineola flew low and dropped a laurel wreath which landed squarely on the grave.

## VETERANS OF WAR THROW PRO-GERMANS OUT OF OFFICE

Evansville, Ind., Jan. 10.—A. J. Venemen today resumed the position of Vanderburg county attorney, following the action of returned soldiers, members of the world war veterans, aided by 300 citizens, who forced the resignation of Henry Puente, who had been named to the position, and his father, Fred Buente, county commissioner.

When Venemen's term as county attorney expired, the county commissioners did not reappoint him to the position, but named Henry Buente.

Soldiers made an investigation, and found that Venemen had not been reappointed because he made a speech in German township advocating that the name be changed to Gresham township. Venemen had been a leader in patriotic work during the war, having been chairman of the draft board, Red Cross worker and Liberty Bond salesman.

Prompt action was decided upon at a meeting of the soldiers and they marched to the court house. Besides the resignation of the two Buentes, they demanded that Henry Schminke, who had also voted to displace Venemen, give up his position. However, he was allowed to remain on his promise to vote to reinstate Venemen. Evansville has many residents of German blood, and further action by the World War Veterans along this line is expected.

Some concerns, it has been reported, have refused to re-employ soldiers on their return to civilian life and action against these companies is planned by the veterans' organization.

## SPEEDY PEACE IS WANTED BY U. S. LEADERS

Washington, Jan. 10.—Administration leaders in congress are eager for speedy peace. Their plans to clean up necessary legislation by March 4th and so avoid an extra session are being seriously interfered with, they said today, by delay at the peace conference. This is because a large element in congress is unwilling to pass certain legislation because it does not know what the peace conference is going to do about the league of nations, freedom of the seas and international disarmament.

The big supply bills, appropriating for the army and navy, are involved. Many congressmen argue that congress cannot intelligently appropriate it until it knows whether the U. S. ideas of world peace are to prevail, making practicable the reduction of sea and land war forces to a minimum.

## HENRY FORD TAKES HEALTHY WHACK AT THE "MEN IN POWER"

Detroit, Jan. 10.—Henry Ford takes to task "men in power" for "regarding workmen as factory fodder," in an editorial under his own name, in his national weekly, the Dearborn Independent, which will appear tomorrow.

Responsibility for the war is placed on "a bad condition everywhere."

Individuals may have seized the occasion for their own personal ends, but the world condition made it possible for them to do so, writes Mr. Ford.

"We were piling up millions of munitions, erecting mountains of man-killing tools," reads the editorial. "The world was simply festering with selfishness. Men of power were regarded as workmen as factory fodder."

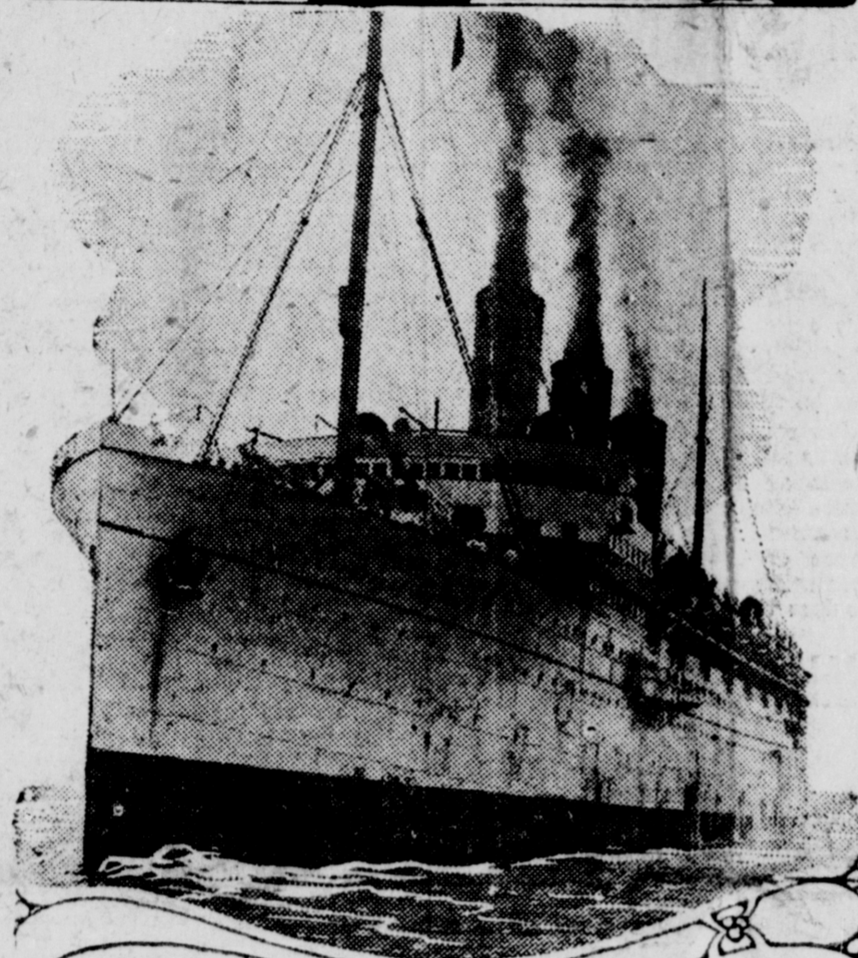

We thought society could remain healthy with one part in suffering and the other part rolling in luxury. We thought a system which steeped one man because he was poor, and bowed before another because he was rich, was going to last."

Mr. Ford also advocated repressing the manufacture of many articles which during the war were placed in the "non-essential class."

He holds they should give way to "new and useful industries." He attacks "absentee ownership," and writes "the only interest they have in the business or the product is the dollar they can squeeze out."

Mr. Ford announces "this banner exists to spread ideas, the best that can be found. It aims to furnish food for thought. It desires to stir ambition and encourage independent thinking."

TO PACIFIC COAST HOMES FROM EUROPE  
LINER CARRIES CANADIAN HEROES DIRECT

Liner Empress of Asia, used as transport during war, and route it is taking on long voyage with Canadian soldiers.

Fifteen hundred officers and men of the Canadian expeditionary forces are bound for their homes in British Columbia and Alberta on board the Empress of Asia, Canadian Pacific ocean service liner. They will make the entire journey to Vancouver on that ship, which was turned over for service as a transport when the war broke out. The ocean voyage taken by her soldier passengers is probably the longest one taken by any of the troops which participated in the war.

## WOMEN PARTY LEADERS CONSULTED BY REPUBLICAN NATIONAL COM.

Chicago, Jan. 10.—For the first time in the history of the Republican party, its national committee met today to plan a presidential campaign in co-operation with women party leaders.

Preliminary to the executive meeting of the committee today, members of the Republican Women's National Executive committee conferred with national committee leaders. It was believed that the women would go before the national committee when it convened shortly before noon for further discussion of campaign plans.

Chairman Hays hoped to conclude the routine work of the committee at one session today. That work accomplished, the remainder of the day was to be given over to an open meeting, which was expected to take the form of a Roosevelt memorial.

Governors McKelvie, Nebraska; Burns, Minn.; and Beekman, Rhode Island, were to address the open meeting.

Vacancies on the national committee were to be filled by the seating of A. J. Scott, Maine; H. F. Keen, Virginia; and Patrick Sullivan, Wyoming.

## POLICEMEN ARE SUSPENDED FOR ENGAGING IN FIGHT

Columbus, Jan. 10.—Three policemen were under suspension today for engaging in a fist and mace fight at High and Warren streets late last night, over the disposition of the alleged runaway boys, Henry Mantice and Edward Shane, Martin's Ferry.

Much blood was spilled and traffic held up for 15 minutes. A fourth officer was suspended for alleged intoxication.

## WORKING GIRLS PRESENT GIFT TO MISS WILSON

Paris, Jan. 10.—A delegation of working girls, representing one of the biggest department stores of France presented Miss Margaret Wilson, the President's daughter, with a magnificent toilet set made of Tortoise shell, initialed and inscribed with gold. The set was contained in a handsome leather presentation case.

In presenting the gift, one of the French girls said tribute to Miss Wilson's work in behalf of the working girls.

## MANY KILLED IN BUENOS AIRES IN STRIKE RIOTING

Buenos Aires, Jan. 10.—Scores are dead and wounded today in the rioting of strikers in Buenos Aires. Mobs, estimated at 10,000 strong terrorized the city. Many buildings and one church were burned. The exact number of casualties was unknown. Martial law may be proclaimed.

A large crowd stormed the arsenal, overpowering the guards and seized large quantities of arms and ammunition, which was distributed to small gangs of rioters throughout the city.

Buenos Aires, Jan. 10.—Sailors and soldiers with rifles and machine guns patrolled the streets today, following a night of strike rioting, in which many were killed and injured.

In fighting at the Vasena iron works, soldiers turned machine guns on the strikers, who replied to this fire with machine guns taken from the arsenal, when they raided it. Six were killed, and many wounded.

The Catholic Girl's school was set afire by the strikers, but none was hurt.

Socialist deputies demand to know why the government permitted the disorders, precipitated a fist fight in congress.

President Irigoyen urged congress to declare martial law.

Newspapers were not sold on the streets today, only enough copies being printed for delivery to subscribers. Half the police went on strike, and other joined them. As a result, there are no police on the streets.

## HARMONY AT PEACE CONFERENCE SEEMS ENTIRELY ASSURED

London, Jan. 10.—Agreement of Great Britain and the United States on the broad outlines of the peace settlement is a happy augury for a satisfactory conclusion of the Paris conferences, American Ambassador Davis declared here today, in a speech at the Pilgrim's club. He was entertained there at a luncheon, to welcome him to England.

In his speech, Davis paid deep tribute to former Ambassador Page, who recently died, and to the war records of the British Empire. He praised the increasing spirit of friendliness and co-operation between the United States and Great Britain, and spoke with great pride of America's part in winning the war.

With regard to the peace settlement and the agreement of his own country and Britain, Davis declared he believed the two nations would be as harmonious as to details of peace as they were on its broad general outlines.

"I am sure the same great ideas and purposes animated Britain and America," he said, "and therefore I am sure there can be no rightful conflict between our fundamental interests in the final adjustment."

"We ask to be set free from the constant fear of war."

The doctrine of arms and the ability of irresponsible power to do mischief, he said, must give way to the rule of common right.

"We propose," he asserted, "to create a due safeguard for the maintenance of justice and liberty."

## TEN THOUSAND DIE OF FLU IN ITALY

Rome, Jan. 10.—There have been 10,000 casualties in the present influenza epidemic in Italy, according to Mr. Monteguarneri, who today asked the government to do all possible to fight the disease.

Incessant rains have flooded the river Tiber until the surrounding country is inundated.

## COLUMBUS GETS OLD STREET CAR RATES

Columbus, Jan. 10.—After a fight of several months for straight fare and penny transfers, the Columbus Railway, Power and Light Company today announced a return to the old rate of eight tickets for a quarter, with universal transfers.

By this action directors of the company hope to avoid a receivership. Adequate service will be resumed and the whole question will go back to a pre-war basis.

## BERLIN EXPERIENCES THE HORROR OF BEING BOMBED FROM THE AIR

Paris, Jan. 10.—Chancellor Ebert is master of the situation in Berlin, a Zurich dispatch to L'Information, declares today. Field Marshal Von Hindenburg is in Potsdam where he arrived two days ago. He does not propose to allow any elections until order is fully restored. Von Hindenburg's presence, together with the government's decision to use arms in suppressing the insurgents has completely changed the situation.

Copenhagen, Jan. 10.—Berlin has at last experienced the horror of a night bombing attack.

A dispatch to the Berlingske Tidende today reported that government aviators attacked the Silesian railway station with bombs Wednesday night killing 65 persons.

The most intense fighting occurred that night in the central and southwestern portion of the city, the dispatch said. The casualties were reported to be heavy.

Basle, Jan. 10.—Three thousand members of Police President Eichorn's republican guards, have placed themselves at the disposal of the Ebert-Scheidemann government, according to the Frankfort Gazette. (Eichorn has been aiding the Spartacans and his surrender was one of the terms of the truce proposed by the government.)

London, Jan. 10.—The fighting in Berlin for control of the government machinery is turning decidedly in favor of Chancellor Ebert, according to the latest advices reaching London today. Government forces were reported to have recaptured practically all public buildings.

Martial law had been proclaimed throughout the city, and reinforcements were pouring into Berlin all day yesterday to clinch the apparent victory over the Spartacans.

The insurgents were drawn from the telephone offices by artillery fire. Spartacan headquarters, set up in the central police station, had been isolated by cutting the telephone and telegraph wires.

The Spartacans apparently held the water works and power plants, resulting in much of the city being without water and light.

The government is estimated to have more than eighty thousand troops under arms at strategic points throughout the country. Students in Berlin were reported to be organizing a cavalry regiment to aid the government.

The Germania declared that more than a thousand Russian bolsheviks in German uniforms, were fighting on the side of the insurgents in Berlin.

New outbreaks were reported in some places yesterday, including Spartacan riots at Essen, Dresden and Dortmund.

er the Ebert forces ejected Leibknecht's men from most of the buildings they had captured, according to these advices. Fighting was especially severe around the Silesian railway station. Spartacan riots were reported dwindling in violence, after a bitter machine gun struggle, in which the civilian population suffered heavily. Outbreaks were noted in Essen, Dresden and other centers.

A Copenhagen despatch said there was rioting in Munich.

## U. S. TROOPS WILL NOT BE SENT INTO BERLIN AT PRESENT

Washington, Jan. 10.—The American government has no present intention of sending its forces to Berlin.

That fact was learned on high official authority in the wake of the Prussian capital revolution and the new hints that doughboys would be welcomed.

The propaganda in favor of American occupation emanates mainly from the middle of the road group. The United States government, however, believes intervention internationally now would provoke trouble rather than settle it.

## 8250,000 LIBERTY BONDS STOLEN

Chicago, Jan. 10.—Postal inspectors and detectives today sought \$250,000 in Liberty Bonds stolen from the Studebaker Corporation of South Bend, Ind.

## WOMEN PHYSICIANS TAKEN AS INTERNES

Philadelphia, Jan. 10.—For the first time in the history of the University of Pennsylvania, women physicians will be accepted as internes in the University hospital.

The only restrictions are there shall be but two women physicians internes at one time and that both shall be medical graduates of the University of Pennsylvania.

The first women physicians will enter the hospital early in July, soon after graduation.

## MONTENEGRIANS START REVOLUTION

Rome, Jan. 10.—Montenegrins revolted and expelled the Yugoslavs from that country, Jan. 8, it was announced by the Montenegrin counsel here today.

## FAIRFIELD MAN IS CRUSHED TO DEATH BY CAR

W. M. Eaton, 48 years old, of Fairfield, a trackman employed by the Ohio Electric Railway Company, was crushed to death when he was struck by an Ohio Electric car at 10:22 Friday morning, between Harshmanville crossing and Harries' Station, in Montgomery county.

Mr. Eaton was stooping over the track tightening some bolts, and he did not notice the approach of the traction car, because of the noise made by a train passing on the Big Four railroad and traveling in the same direction as the traction car.

The motorist said that the air of his car failed to work and he was unable to stop before it crashed into the unconscious workman. His body was terribly mangled. It was taken to their morgue in Osborn by Morris Brothers, undertakers.

The victim leaves three sons, James Howard and Roy. The two former lived with their father in Fairfield and the youngest is with his mother who is divorced from the father.

## CITY OFFICIALS FAVOR OWNERSHIP OF WATER CO. BY CITY

Members of the City Commissioner unanimously expressed themselves in favor of municipal ownership of the water company in an open discussion of the matter at the regular meeting Thursday night.

The matter of supplying a man t work as extra policeman on the patrolmen's regular holiday and at other times when an extra officer is needed was agreed upon, and the commission arranged for such a man.

Other routine business and the regular bills were presented. An interesting comparison was derived from the expense of operating the horse draw fire apparatus as compared with the expense of the motor truck, the horses costing much more to keep up than does the new truck.

## SMALL FIRE CAUSES SLIGHT DAMAGE

Fire, which started from an overheated stove pipe, between the ceiling of the Hustmeyer billiard hall and the floor of the second story of the building occupied as a store room by the R. D. Adair furniture store caused small damage at 12:30 Friday.

The fire was discovered by Albert Robinson, employee of the Hustmeyer Billiard Hall, when the flames began shooting down through the ceiling and he immediately called the Fire Department. The motor truck responded and the blaze was extinguished with the chemicals. Fortunately the fire had not gained headway enough to reach any of the furniture stored in the upstairs room. The building is the property of R. D. Adair.

## LARGE GREENE CO. DELEGATION URGED

## GREENE COUNTY MEN ATTEND MEETING HELD IN COLUMBUS

The Ohio State Hereford Association met in the foyer of Deshler Hotel in Columbus, Thursday, a number of Greene county members being present at the meeting.

The annual election of officers took place and two new members of the executive committee, that committee being increased to "five members. Charles B. Stevenson of Cedarville, past chairman of the executive committee was re-elected to the position and is the only Greene County member holding office in the Association.

Thursday's meeting was a most interesting and enthusiastic one. An increase in membership was urged at the meeting and a campaign is being conducted to bring every Hereford feeder into the Association. Plans were also formulated for the spring sale of Herefords which will be held in Columbus, May 31.

There are still a number of Greene County Herefords breeders who do not belong to the Association and local members of that organization are anxious to bring these breeders in. It is hoped that every Hereford raiser in the state will be a member of the Association before long. Charles B. Stevenson of Cedarville attended the meeting in Columbus Thursday.

Those re-elected for office were: James E. Hill, of Round Head, O., for president; Ira Day, Greenville, ice-president; J. B. Fernow, of Leesburg, secretary and treasurer. The three old members of the executive committee re-elected were: Charles B. Stevenson, chairman, Cedarville, O.; J. S. Kerr, Marietta and W. W. Hooker of New London. The two new members were James Leesche of St. Marys and L. E. Harper of London.

Uncle John Hooker of London was unanimously recommended by the Association as a judge of Hereford cattle at the State Fair this year.

From youth to age the greatest menace to health is constipation, which retards digestion and disturbs the entire organic system. To relieve constipation a mild laxative, such as Dr. Caldwell's Syrup Pepsin, is preferable to drastic cathartics and purgatives, the violence of which shock the system unduly.

## Run-Down People

### Vinol is What You Need

Weak, run-down nervous men and women need Vinol because it contains the most famous reconstructive tonics in an agreeable and easily digested form:—Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates.

We guarantee there is no tonic equal to Vinol.

#### HERE IS PROOF

**Detroit, Mich.**  
"I got into a weak, run-down condition, no appetite, tired all the time and headaches—but had to keep around and do my housework. I read about Vinol and tried it—within two weeks I commenced to improve, and now have a splendid appetite and feel stronger and better in every way."  
—Mrs. John F. Watson.

**Tozarkana, Texas.**  
"I keep house and I was weak, run-down and nervous, back ached a good deal of the time, so it was hard to take care of my chickens and do my work—Vinol has restored my strength, and my nervousness has gone, so I can do my work as well as ever. Every run-down woman should take Vinol."  
—Mrs. Emma Britt.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

## LADY BARBER IS LATEST INNOVATION IN CITY OF XENIA

And now comes the lady barber! She has made her first appearance in Xenia, Ed. Wood springing the innovation at his North Detroit street shop.

And now mere man is getting barbered as he never was barbered before, reeling in shampoos and massages and glowing in sweet-smelling tonics and face cream. Hang the expense.

The pretty little blond lady who has encroached on what was man's own territory heretofore in antebellum days, is Mrs. John Myers, who hails from Connorsville, Indiana, and who can strop a razor and harvest the stubble as well as any mother's son. She deftly lathers the face without ever slipping soap suds in the eyes or mouth and she can operate a pair of clippers better than a sewing machine. And more than that she is good at it. Since her coming the third chair at the Wood shop is the rendezvous of all customers.

John Myers, husband of Xenia's first lady barber, is also in the profession, and is barbering at the Mullen shop, it being sort of a family affair to reap and garner the human foliage from the crown and countenance of mankind.

Luke McLuke, commenting in his "bits of byplay" on the advent of the feminine tonsorial artist in Xenia, says:

The druggists in Xenia, Ohio, are having a record sale of safety razors. Every married woman in town seems to be buying one. A lady barber has just opened a shop in that town.

## SHEEP AND WOOL GROWERS OF THE

A meeting of the sheep and wool growers of Greene county has been called by County Agent F. S. Prince for the purpose of forming a Sheep and Wool Growers' Association in Greene county.

The meeting, which has been called for Saturday, January 25, at 1:30 o'clock, will be held either in the assembly room of the court house or at the Xenia Business Men's Association and due notice of the place will be given later. The purpose of forming an Association is to stimulate interest in sheep growing, advertising the sheep already produced in this county in order that local growers may be able to market their wool in a more satisfactory manner.

J. F. Walker, secretary of the Ohio State Sheep and Wool Growers' Association, will be present at the meeting and assist in the formation of the organization. Other prominent sheep men of the state have also been asked to attend the meeting.

A good crowd of sheep growers is expected because of the uncertainty of the present wool market and every man in Greene county interested in wool production and better sheep growing is urged to be present at the meeting.

## HUNGER VICTIM

HERE is a sample of what prolonged underfeeding will do to a growing boy. The boy in the picture—an Armenian—was driven from his home by the Turks and for months lived on herbs and shrubbery of the plains of the Near East. There are thousands like him! Your contribution to the Armenian and Syrian Relief Campaign, Jan. 12-19, may save from starvation some mother's boy.

#### Plaint of the Weak.

Betty Jane had just been operated on for tonsillitis and was still in the hospital and feeling weak. One day when the doctor and Betty Jane's mother were in to see her she was restless and did not want to lie still, so the doctor said: "Now, Betty Jane, if you lie over on your side and are real quiet you will get well quick and be able to go outside and play with the other children in just a short time." So with a heavy sigh she turned over on her side. In just exactly two minutes she turned over, looked at her mother, and sighed: "Oh, mother, but it's a lonesome job, being good!"

"The one greatest comfort we had in the training camps was the AMERICAN Radiator. . . . After the hard day's work in the rough weather it certainly builds up a man, bodily and mentally, to be under the spell and charm of these comfort-machines—that's what your Radiators are. . . ."

Are you preparing a "cozy camp" for your hero son, where his comrades will often gather to tell their stories, or will his waiting bedroom be the old, chilly place where for very cold he needs must burrow under blankets?

## AMERICAN & IDEAL RADIATORS & BOILERS

IDEAL Boilers and AMERICAN Radiators are built scientifically to extract and distribute the greatest possible volume of heat from each ounce of coal. Two-thirds of the heating surface of an IDEAL Boiler is directly around the fire—absorbing the utmost heat from the fuel. Heat is circulated three times as rapidly as in old-fashioned heaters—which is one of the strong reasons why IDEAL Boilers burn one-third less fuel than other devices, and permit cheapest fuel to be used.

The ARCO WAND Vacuum Cleaner is cellar-set and piped from floor to floor. Put in any new or old home without tearing up. Now also made in two-sweeper size for apartments, hotels, office buildings, etc. Fully guaranteed. Lasts for years. Sold on Easy Payments. Send for catalog.

IDEAL Boilers will supply ample heat on one charging of coal for 8 to 24 hours, depending on severity of weather. Every ounce of fuel is made to yield utmost results.

### Burn one-third less cheap fuel than other devices

Easy to put coal in the roomy door—a whole day's supply put in the IDEAL fire-pot in a minute's time. Easy to shake because you stand erect—gently shake only a few grate bars at a time. The same water is used for years. An IDEAL Regulator controls draft and check dampers automatically to suit weather.

The price is the closest possible between manufacturer and user. Price is no higher than asked for ordinary makes. Accept no substitute! On each IDEAL Boiler and AMERICAN Radiator our name is cast—your guarantee.

Send today for "Ideal Heating" (free), giving much valuable information on fuel economies—for homes, churches, stores, schools, and other buildings. Act now, and your re-united family will know no sting of winter.

FAIR PLAY TO THE  
Y. M. C. A.

The criticism which some papers has launched against the Y. M. C. A. needs to be tempered by a fuller presentation of the other side of the balance sheet. The "Y" in France, serving the members of the American Expeditionary force, is a mortal and fallible agency. It is not engineered and officered by angels who can do no wrong, and are inspired always to say and do the right thing at the proper moment. But at a time when men were hard to find, the Y. M. C. A. mobilized and sent to the front an army of secretaries with whom, in the vast majority of instances, the first and the last thought was simply, "How can I serve?"

Mr. Edwin L. James, the writer who has made the most complaint, says that the men felt terribly toward the "Y" because many millions had been subscribed by their friends at home for the work of the "Y" and there in the field it was charging for what was handed out over the counter. This was simply a misconception of conditions, only that and nothing more.

Before the public reaches a verdict against this noble institution which has done a world of good in helping, where it's true function has been fully realized, the following considerations should be kept in mind. Only a thorough investigation can justify general condemnation. Any organization the size of the Y. M. C. A. expanded as rapidly as it was, is liable to certain errors in administration and choice of personnel. The Y. M. C. A. could not do the kind of work carried on by the Red Cross.

General Pershing had requested the Y. M. C. A. to conduct canteens, which were not and could not be free gratis, but the money charges naturally irritated men accustomed to gratuitous service from the Red Cross and food and clothes from the Quartermasters' department.

Women workers were naturally popular in an army of men, but these women workers were all in other organizations such as the Salvation Army, Y. W. C. A., and the Red Cross. The war being over and the soldiers marking time, it is to be expected that some grumbling would be started, and maybe a few more organizations will soon share the blast of criticism.

FACTIONS OF RUSSIA TRY-  
ING TO GET TOGETHER.

A powerful European press campaign is going forward with the object of swaying public opinion in the direction of a military expedition to combat Bolshevism in Russia and eastern Europe, and the journals are picturing vividly sinister consequences to the civilized world which a spread of the anarchist movement would engender; but it seems unlikely that in the present conjuncture the Allied Governments will venture to contribute the requisite contingents of troops for the purpose.

Unquestionably the actual situation in eastern Europe constitutes one, but only one, of several formidable hindrances to the remodeling of the State system on Wilsonian lines. The longer Bolshevism maintains a hold on fallen autocracies the further will the politico social ideals of the civilized world recede into the distant future.

The resolve to unite and create an agency for the expression of the national will is manifested in every political party in Russia, from the nominal Socialists to the conservatives and monarchists, and all profess readiness to abide by the result of elections to a constituent assembly.

As the provisional governments appear to be animated by a single-minded determination to rescue the nation from the slough of despond at any and every cost to their own party's interest, there is reason to hope for some amelioration in the near future.

## Real Bonanza Kings.

The "bonanza kings" were James S. Flood, A. S. O'Brien, John W. Mackay, and James C. McRae, four men of Irish ancestry who acquired vast fortunes from the gold and silver mines on the Pacific coast. They had various imitators and successors who shared the same fate, but their names were the only original bonanza kings.

## "THE WIFE"

BY JANE PHELPS

ARTHUR MANDEL RENOUNCES  
RUTH.

## CHAPTER CXXVII.

When Ruth, shocked by his appearance, asked Manuel if he were ill, he bowed himself together with an effort and reassured her.

"Just a passing lameness," he explained. "The room is pretty warm," he raised a window. "There I feel better already," he smiled at her in his old fashion, so dissembling any feeling that she had said or done anything to cause him to look as he did.

But after she had closed the door, Arthur Manuel quietly locked it. Then, in the next half hour, he bade good-bye forever to the only dream of married happiness he ever had indulged in; and in manly fashion determined that never would he allow it to interfere with his work, or his friendship for Ruth.

At the same time Ruth was thinking of him. She had not been really sure that she was not learning to care for Arthur Manuel. He had been so considerate, so kind, so much the real friend as well as the employer that she had not been absolutely certain just what her feelings were toward him. She respected his business acumen; his success. She knew his character was beyond reproach, and she also knew—dread it as she would—that he cared for her, and she had not—never would—plumb, but she knew he cared. Yet as she thought of him, it was calmly, as she would any good friend who had been so dear to her. Then, when her thoughts veered to Brian, they were no longer calm, but she thrilled with love for him—pride in his accomplishments.

"Dear Brian," she murmured as she bent to her work, "I do love you." Ruth had found a location that she thought ideal for a lawyer's office. The rooms were light and airy, overlooking the bay, and were newly decorated. Almost she felt like engaging them. But common sense came to the rescue and she simply took the refusal of them; explaining that she was Mrs. Hackett. When the real-estate agent asked:

"Not the wife of that Lieutenant Hackett who bagged those Huns under?" she had answered with such pride as she never before had felt in any one.

He had given her the refusal of the rooms, and had agreed in her opinion that the war would soon end, but he also had said as had her aunt: "They will keep a standing army over there for some time."

But somehow Ruth felt that Brian would be allowed to return to her, and so expressed herself.

"A woman's intuition is often right. I hope sincerely that yours is," the agent had answered smilingly.

While Ruth told her plan to no one, that is no one who could understand, she did not quite keep it entirely to herself. She would whisper what she hoped to do for his father to Brian, Jr., as she held him in her arms, and crooned over him.

"You have a very brave daddy," she would whisper. "He's coming home soon to get acquainted with you. You'll love him just as mother does. We will be very happy, you and daddy and I. I am going to fix up a lovely place for him, and he will make a lot of money—you see if he doesn't." Someway, when she referred to Brian's business ability, she always hesitated.

"You see, baby mine, we have to be very good, you and me. Daddy is a big man now and wears two crosses. That means he was very brave, very wonderful. We must be wonderful, too, in some way to keep up with him. Your daddy looks awfully handsome in his uniform, baby. I wonder if you will ever be as handsome as he is? You look like him now, but there may be enough of me in you to spoil your looks when you grow older. I hope not, I'd love to have you look just like your dad." All this and much more did Ruth confide to her tiny boy.

Somewhere, since Ruth had decided that Brian was so superior to anyone else—even to Manuel—she had loved him in a different way. The old feeling, not that he was inferior personally, but that he possessed business inferiority, had given way to the pride in his accomplishments in the army, and forgotten she had his former failures.

She seldom thought of Mollie in the days after the news of Brian's bravery came to her. If she did, it was to think that she, Mollie, couldn't be with him while he was fighting; and that if the papers were right in their reports, the war would soon be over and he would return to her.

"I'd like to see Mollie King, or anyone else, get him away from me!" she muttered to herself.

Turkey Proceeded to Attend to the  
Armenians

By WILLIAM HOWARD TAFT

Now why the need of money for the Armenians? You know their story? Abdul Hamid was the Sultan of Turkey. He was the sweet-scented individual who in 1896 deliberately directed the killing of 100,000 Armenians. Who are the Armenians? They are one of the oldest Christian peoples in the world. They lived in a province that lies north of Mesopotamia, east of Asia Minor, west of Persia and south of the Black Sea. It is a province of mountains and valleys—not only rich but fertile. 1,800,000 Armenians lived in that country, cultivating the valleys and made them "blossom as the rose". The Turks hated them because they were Christians; hated them because they were industrious, and enjoyed the prosperity that comes from industry.

Later when Turkey entered the great European war as the ally of Germany, she invited German officers into her army. Her army was shortly officered by German officers, who directed that army to go into Armenia and deport 1,800,000 Armenians, which they did. 600,000 escaped. The other 1,200,000 were driven by that army to the desert of Mesopotamia and Syria, and in the drive the army deliberately killed men, women and children, by rifle ball, by bayonet, by knife, by driving them over precipices, by driving them into deep running rivers—600,000 men, women and children! Half of them were deported to Asia and half to Mesopotamia. Out of those deported nearly 400,000 died of starvation.

Then Germany turned the Caucasus over to Turkey; Turkey proceeded to attend to the Armenians—in that kindly, fatherly way! That is the story!

A friend of mine who was on the border of Persia told me that he had gone to a German officer and said "For God's sake, can't you stop the butchery of these men, women and children?" and the German officer clicked his heels together and said "Stand back, the time for mercy has passed!"

This is the story of that unfortunate people. The Syrians, Greeks and Jews in Western Asia have suffered the same kind of barbaric treatment. The Armenian and Syrian Relief has been organized for some years to care for these unfortunate, sorely distressed people. It has received and most efficiently expended more than \$12,000,000. Each cent that you give will go for actual relief. People, helpless, starving millions cry for food. I urge you to give generously of your bounty.

Everyday  
Etiquette

"When one is eating with the right hand, should the left hand be kept in the lap below the table?" asked a girl.

"Yes, for it shows a lack of poise to be handling the table utensils unnecessarily," replied his aunt.

## MOTORAIDS

Lighting troubles are usually due to a discharged battery or an open circuit. The battery may be tested by operating the starting motor, but if the motor fails to operate, do not assume that the battery must be discharged, as there may be an open line in the starting circuit as well as in that of the lights. Open the battery compartment and examine the connections of the battery to be sure they are all clean and tight.

If no loose connections are found on the battery, test it by means of a test lamp or voltmeter or by a hydrometer. It may be given a very satisfactory test by short circuiting the battery with a short piece of wire or other conductor. If it is completely discharged practically no spark will form when the circuit is broken.

The Itching and Sting  
of Blazing, Fiery Eczema

Seems Like The Skin Is on Fire. There is a harassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of ointments is impossible, because such treatment can only delay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. ## Habits of Swans.

Whether the swans prepare in any special way for their southward journey is not known; but before starting north they indulge in the curious habit known as "ballasting," that is to say, they eat great quantities of sand, for what purpose no one knows. In the Arctic ocean lies their breeding place, and it is believed that they mate for life. As with so many of the water birds, the swans protect their eggs with a covering of down scratched from their own breasts, so that when the birds leave the nest the two to six large yellowish eggs are hidden from the eyes of possible thieves, and protected against any sudden changes of temperature.

### Outdoor Sleeping.

It is perfectly safe to sleep outdoors through the autumn and even the winter months if you are adequately protected against the elements. Those who are in the habit of sleeping out of doors, in porches, will find that a layer of newspapers placed between the springs and the mattress of their outdoor beds will make them much warmer, as the newspapers prevent the wind coming up from beneath the mattress. Woolen or cotton flannel sheets, too, will be found much more comfortable, in these outdoor sleeping places, than the linen or cotton ones preferred within doors. A steamer rug, if not too heavy, is an excellent covering.

## CONGRESSMAN S. D. FESS IS BEING BOOMED FOR SPEAKER BY FRIENDS

Congressman S. D. Fess, of Greene county man may be the dark horse in speakership race says Carl D. Ruth, political writer for the Washington News-Leader. He comments on the chances of Dr. Fess to be selected as speaker of the house as follows:

Astrology may be obsolete, but political observers at Washington, always superstitious, aver that Congressman Simon D. Fess, of Ohio, was born under a lucky star, and that said star is now startlingly in the ascendancy and of steadily increasing brilliance.

For some time the statesman from Yellow Springs had been regarded as one of the strong intellects of the House and a leader on the Republican side, and his star was already twinkling in the political firmament. Such was their esteem for his abilities in organization and leadership that his Republican colleagues unanimously elected him chairman of the national Republican congressional committee and entrusted him with the job of re-electing them and enough more G. O. P. candidates to wrest from the Democrats their twelve-year control of the lower branch of Congress.

It was considered that he had a good fighting chance until the President made his famous "My Countrymen" plea for the election of Democrats only. But Fess fighting mad, by his own personal solicitation collected a campaign fund within a week of \$140,000, handed out some blistering interviews and publicly predicted that the Republicans would control the new House by a majority of at least forty.

Republicans were skeptical and Democrats immensely amused, but from the day after election until the votes were finally counted in the remotest country district the Republican majority steadily swelled until it reached forty-five. The prestige of Fess grew accordingly and with it talk of electing him speaker of the House.

The talk was discounted, of course, by the fact that Congressman James R. Mann's health was reported as rapidly improving since election together with the assumption that, by virtue of his position as Republican floor leader, he had a priority claim on the speakership if he wanted it.

But Mr. Mann is not popular, and his pre-war record was bad and the formal announcement of his candidacy last week failed to arouse any degree of enthusiasm. Whereupon the friends of Congressman Frederick H. Gillett of Massachusetts, who had been acting minority leader during the Chicago man's long illness and who outranked him in years of service in the House put forth his claim for recognition and pointed to his flawless record on all war legislation. Gillett yielded to the "pressure" and formally announced his candidacy. So the speakership fight was on.

### Fess Men Busy Now.

Foreseeing the possibilities of a caucus deadlock between the Mann and the Gillett factions and scenting a strategic situation in which a strong third man might break in and carry off the honor, the friends of Fess are now quietly, but effectively organizing an independent movement and predicting that when the time comes the Fess boom will sweep all before it and the partisans of Mann and Gillett, realizing the hopelessness of success, will clamber aboard the Fess boom-wagon.

As a substantial nucleus, the Fess boomers say they are assured not only the votes of all fifteen Republican members and members-elect from Ohio and all of the thirteen members of the solid Republican delegation from Indiana, to say nothing of pledges of scattering groups from Wisconsin, Iowa, West Virginia, Nebraska, Kansas and the Pacific coast states.

As for Congressman Fess himself he is lying low, saying little and awaiting developments. Headless of importunities of his supporters to announce his candidacy, he is biding his time and waitfully watching.

Following Gillette's announcement last week he put out a short signed statement advising his Republican colleagues to avoid the dangers of factionalism, recalling the disastrous results of former party splits and warning them as to the possible fatal effect on the next presidential campaign.

### Warns Against Reaction.

"The country must await 1920 to place full authority of the government in the keeping of the Republican party," his statement said. "Whether this will be done or not will depend upon how we use the victory given us by the people. If the House now, in its first opportunity since it has come under the control of our party, proceeds to effect an organization upon any ground other than the country's welfare through party solidarity, it will be a serious mistake, too apparent for need of comment."

"The vote of confidence in the last election, which was emphatic as to its significance, will be as quickly withdrawn as it was given if either personal ambition or factional rivalry be permitted to descend to any bitter scramble for position, either in the speakership or the assignment of committees. No such consideration can be allowed to dictate our first official act."

Everyone, Republicans and Democrats alike, agreed that that was a sagacious and statesmanlike utterance and it greatly increased the satisfaction of the Fess boomers, for, said they, besides being sound sense, the issuing of the statement was excellent strategy.

### Help Redeem Ohio.

Aside from its bearing on the organization of the next House, the speakership contest has a distinct

## FRENCH SOLDIERS LEAD IN WORLD'S SACRIFICE

At the outbreak of the war the population of France was 36 millions and of these six millions have been offered on the altar of freedom, thereby leading every other nation. We of America must be very grateful for this and also for an invaluable remedy for stomach, liver and intestinal ailments discovered by the peasants of France, which it is reported has saved many lives in America, prevented thousands of surgical operations and relieved incalculable suffering among its people. George H. Mayr, for many years a prominent Chicago chemist, imports the ingredients and sells this remedy under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sayre & Hemphill, and druggists everywhere.

## MISS ELEANOR TRESSLAR BECOMES THE BRIDE OF WALTER C. PATTON

A charming simplicity attended the marriage of Miss Eleanor M. Tresslar, youngest daughter of Mr. and Mrs. Albert Tresslar, to Walter C. Patton of Springfield, a Y. M. C. A. secretary serving for the last year in France, which was solemnized at 8:30 Thursday night at the Tresslar home on the Springfield pike just outside the city. Immediate relatives and a few friends were present at the nuptials.

Officiating at the impressive ring service was the Rev. Charles E. Byer, of Christ Episcopal church, Springfield, pastor, and a close friend of the bridegroom.

The Tresslar home was decked with palms and cut flowers. An altar of palms and ferns was erected in a corner of the living room, flanked by two white standards which were twined with smilax, and held tall white candles in crystal candelabrum. To this altar a pathway was formed by white ribbons which were caught up at the foot of the stairway and drawn by the Misses Nelle and Ruth Patton of Springfield, the bridegroom's sisters. They were in white frocks, and were the only attendants upon the bridal pair, whom they preceded to the altar.

The bride's robe was of georgette crepe, made with a short skirt, and trimmed in panels of the material and hand embroidery. Her veil was of

tulle, falling to the hem of her dress, and arranged in cap effect, with a wreath of lilies of the valley. Her bouquet was of bride's roses.

Mr. Patton wore his attractive Y. M. C. A. uniform.

Miss Dorothy Armstrong was at the piano, and she played the wedding march from Lohengrin as the bridal pair walked down the stairway and proceeded to the altar. While the words of the service were being pronounced, the air "To A Wild Rose," was played softly. Mendelssohn's wedding march announced the closing of the service, and Miss Armstrong continued to play it while the bridal pair received the best wishes and congratulations of the guests.

A two course supper was served immediately, and a lovely color arrangement of pink and white featured the meal. The bride's table was centered by a crystal basket filled with pink and white sweet peas, and pink candles in crystal candelabrum. At the small tables where the remainder of the guests were seated, roses were used in the decorations.

Mr. and Mrs. Patton left Xenia during the evening for a short honeymoon trip, but they did not make their destination known. They will be back in Xenia in time for Mr. Patton to return to New York the middle of next week to await his sailing for France. Mrs. Patton wore for traveling a most becoming toilette consisting of a brown broadcloth suit, fur trimmed, and with hat and foot-year to match.

Mr. and Mrs. Patton's romance commenced while both were students at Antioch college a few years ago. After graduation Mr. Patton entered Y. M. C. A. work, and he was the Y. secretary at Washington C. H. After the entrance of the United States in the war he volunteered for Y. M. C. A. work in France, and spent a year there, returning home on leave, last September.

He expects to sail for France next week, and will again be connected with the Paris branch of the Y. His bride will join him there in the spring, when it is possible for civilians to obtain passports. In the meantime she will remain in Xenia, and will retain her position on the faculty of Central high school, as teacher of mathematics.

Persons from out of town who attended the nuptials are: Mrs. Caroline Patton, the bridegroom's mother, and Mrs. William Patton, Mr. and Mrs. John Patton, Misses Nell and Ruth Patton, Miss Jeanette Patton, Mr. and Mrs. Albert LaFevre, Mr. and Mrs. S. D. Keifer of Springfield; Mrs. I. C. Hook of Albany, Ind.; Dr. and Mrs. C. C. Berlin of Wapakonetta, and Miss Mary Strickland of Defiance.

Young man, my advice is, that you use **Resinol**

How that itched--you scratched it till the blood came. Having tried various treatments without success, your doctor advised Resinol Ointment--and then came glorious relief. Scratching like this sometimes leads to dangerous infection--blood poisoning.

If your skin burns, itches, has a tendency to break out in little sores--don't scratch--that makes it worse--get speedy relief with Resinol Ointment. It seldom fails to clean up a trouble such as this.

Resinol Ointment is a doctor's formula, prescribed by many physicians throughout the world.

### The Joy of Motherhood Told

Women Tell How They Made Event One of Great Happiness.

In every part of the land there are women who tell how, through the application of Mother's Friend, they entirely avoided the suffering usually incident to motherhood. They relate in no uncertain terms how from its use the days were made bright and cheerful and the nights calm and restful, how the crisis was passed without the usual suffering experienced when nature is unaided, and how they preserved their health and strength to devote it to the rearing of their children and to the things life holds for them.

Mother's Friend is a most penetrating remedy, prepared especially for expectant mothers from a formula of a noted physician. Strain upon the ligaments is avoided, and instead of a period of discomfort and constant dread it is a season of calm repose. The hours at the time of birth and Mother's Friend enables the mother to retain her natural grace, and her skin is not cracked and does not become hard or disfigured.

Write to the Bradford Regulator Company, Dept. L, Lums Building, Atlanta, Georgia, for their Motherhood Book, and one bottle of Mother's Friend from the drugstore today.

### DISCOURAGED

You have tried everything. It's the same old story. I hear it everyday. Your courage is gone, your faith is gone. The end would be gladly welcomed, but even that won't come. What would you give to be a well man? A well woman? What wouldn't you give? Worse cases, perhaps than yours, are yielding as if by magic to its subtle power. Why not your case? I will leave it to your intelligence and good judgment. Slaves to mock or false modesty, you desecrate the 95 per cent of the supposed incurable cases could be relieved physically and mentally, if they would only confess to a friend, family, or better, a skilled physician. Don't argue I've tried electricity with no results--you may have no idea what an up-to-date electrically equipped institution really is.

IF I ONLY KNEW JUST WHAT AILS ME.

How often have you made this remark? Yet you continue to suffer, hesitating to seek aid because you consider that medical attention would be too expensive, or, perhaps, are you dissatisfied with past treatment?

Remember, all the wishing, hoping and praying never cured any real physical ailment. Then, why continue to grope in the dark, suffering pain, discomfort and dissatisfaction?

An X-ray examination will cost you but one dollar and is considered by the medical profession as one of the greatest aids to a correct diagnosis. If your case is not incurable you can be treated in one of the most completely equipped offices in the Middle West. 25 years experience.

Office Hours: 9-40 a. m. to 7:20 p. m. Sundays: 9-6 a. m. to 11:30.

## BOWERSVILLE

Mr. N. J. Bowermeister is slowly recovering from a fall he received when he fell at his home the latter part of last week.

Mr. and Mrs. Sidney Handy, of Toledo, are visiting Mrs. Handy's parents, Mr. and Mrs. Wm. Bragg.

Mr. and Mrs. Andy Hoover spent last Friday in Dayton combining business with pleasure.

Miss Hazel Cline will entertain a number of friends on Saturday afternoon with a shower for Mrs. Venis Ary, nee Bertha Hoover, who was recently married, and is highly respected in this community.

Mr. Oscar Moon spent New Year's with his parents, Mr. and Mrs. E. G. Moon. Oscar is located at Camp Taylor, Ky., in the ambulance corp.

Mr. Sam Hussey and wife, of Indiana, are visiting Mrs. Hussey's parents, Mr. and Mrs. P. O. Johnson, and other relatives.

Mr. and Mrs. Herbert Fisher entertained quite a number for New Year's dinner, among those present being Mrs. R. H. Wolf, Mr. and Mrs. I. P. Stewart and children, Este and Vida, Mr. and Mrs. S. T. Carpenter, Mr. and Mrs. F. A. Stewart and son Wendle and Mr. and Mrs. Paul Wolf and children, George, Mary and Ray.

Mr. Lee Allen, son of Mr. and Mrs. Wm. Allen, of this place, died at his home in Michigan City, Ind., of pneumonia, on last Monday night. The body arrived here Thursday and funeral services were held at the Grape Grove church, east of Jamestown Friday at 2 p. m. He leaves a wife and one child, both ill of the flu, besides a host of relatives, to mourn their loss.

## A CHILD'S TONGUE SHOWS IF LIVER OR BOWELS ARE ACTIVE

If cross, feverish, sick, bilious give fruit laxative at once.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without gripping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue. Mother! If coated, give a "teaspoonful of this harmless 'fruit laxative,' and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomachache, diarrhoea, indigestion, colic--remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a "teaspoonful today saves a sick child tomorrow. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

## Don't Spoil a Good Meal With a Bad Stomach

How to Turn a Bad Stomach Into a Good One in Five Minutes.

Why do people go on suffering from indigestion and tummy trouble when they know that Mi-o-na stomach tablets are sold on the money back plan?

If a physician, a specialist in stomach diseases, came to you and said: "I will fix up that miserable, worn out stomach for you or money back." "It will make it as good as new so you will not suffer from any distress, and an eat what you want without fear or suffering or money back."

"It will relieve you of indigestion, or money back," would you turn down his offer?

And when you are offered Mi-o-na stomach tablets, made from a prescription better than many of the stomach specialists know how to write, are you going to be narrow minded, and continue to suffer from indigestion, or are you going to be fair to yourself and try Mi-o-na on the money back agreement?

Mi-o-na stomach tablets are offered to you on this basis, that if they do not put your stomach into such good shape that there is no dizziness, sour stomach, biliousness, sick headache and stomach distress, your money will be returned. For sale by Sayre & Hemphill and all leading druggists.

## Public Sales

Have your sale announced FREE in this column early, so that you may claim your date and others will stay off of it. These ads are run every day and are gratis with the advertisement. We also furnish sale bills without charge. Let us tell you about it.

PUBLIC SALE at farm, 6 miles south of Springfield, 2 miles north of Yellow Springs on the Yellow Springs pike, Monday, Jan. 13th, at 10 a. m.—14 horses, 14 cattle, 112 hogs, farming implements, lumber, buggy, sleigh, etc., Mouk & Weikert, Auctioneers. N. C. 1-11 U. G. FERRELL.

PUBLIC SALE advertising in the Gazette and Republican brings the farmer his time to stop along the road to read sale bills. He is coming to depend upon these papers to notify him of the sale dates and articles to be offered for sale. It's the buyer from a distance who sees your ad in this paper, who jumps in to his auto and hustles to your sale, who pays what your stuff is worth. Your neighbor no longer can stand around and pick off what he needs at an absurd price, as he does when you have not properly advertised, and gotten a good crowd. Use the Gazette and Republican if you want the worth of everything you offer. Don't try to save on your advertising.

PUBLIC SALE—Jan. 14th, 2 p. m. 4 1/2 miles west of Xenia on Van Eaton road—53 hogs, horse, buggy and harness, 20 acres wheat, 10 of rye, 800 bu. corn in crib, hooches, fence posts, separator, 2 barrels vinegar. McClellan, Auctioneer. N. C. DESSIE T. BEAL.

Chipmunks Sleepy Pets. "Within a few years," writes a Chicago correspondent of the New York Times, "two chipmunks were held captive as pets by my children, one for two or three years. In each case these animals retreated to the innermost part of the squirrel house, rolled themselves into the nestling and remained there for several weeks. During this time each animal was removed by members of the family, handled, exhibited to curious visitors, and returned to its nest, all the time curled up in a completely torpid condition, with no evident manifestations of consciousness or even life. During the winter each would come out of the stupor a few times, eat, drink, play, and be active, and then within a week return to its torpid condition."

Eight tons of manure spread over two acres will return a much larger profit than the same amount placed on one acre. In experimental tests, supplementing each ton of yard manure with 40 pounds of acid phosphate raised the crop-producing value of the mixture from \$2.60 per ton to \$4.52.

## Ships of Pumice Stone.

A company has been formed to build ships of pumice stone. This substance, which is the scum or froth of the lava thrown out during volcanic eruptions, would seem to be admirably adapted, in one respect at all events, for the purpose indicated, seeing it is so light that it floats easily on the surface of the sea. It is, however, very porous, so that it soaks up water readily. This, of course, would in the ordinary way render it useless for building ships; but a method has been found of overcoming the difficulty. The hull of the pumice stone vessel, after being completed, is coated all over externally with a kind of black silica called tuga, a glasslike substance.

## GRIP, INFLUENZA

**Hamlin's Wizard Oil a Reliable, Antiseptic Preventive**

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and sniff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whisk, pleasant little pink pills, 30c at druggists. Guaranteed.

## GREAT MEETING IS PROGRESSING AT M. E. CHURCH

The fine spirit of optimism of Evangelist Harney and his faith in God, have captured the hearts of the people in the great meetings at the Methodist church. He does not throw clubs or abuse folks but shows appreciation and sympathy and encouragement in his presentation of the truth, and in urging the people to give themselves to Christ and His service. If it is sincerity, simplicity, tenderness and earnestness in preaching that you like, then the preaching of Will J. Harney will catch your heart. His preaching is not but it is with love. He teaches the people to pray and inspires them to work. He shows sin both by his humor and his tears and calls them through the truth to return to God.

In it all Mr. Harney is just preaching his experience—his life experience. God found him in the hills of Kentucky, a poor sinful young man, and helped him to work his way through college and prepare himself for the ministry, and has used him gloriously in turning many towns and communities to Christ. Last night the evangelist preached on the subject, "Wanted, A Man," taking for his text the story of Elijah praying for rain to save the people of Israel from death. When God finds a man or woman of prayer He can work wonders through that person. When the man comes forth and says to God "Here am I, send me," God uses that man as an open door through which He leads precious souls into the way of salvation, service and eternal life. All God needs to work wonders is a humble, praying man.

## PARENTS, READ THIS

How a Father Has Learned to Save Shoe Bills.

"My son is very hard on shoes, so keeping him properly shod has been quite an expense to me," writes Mr. J. Allison Allen, of Amity, Arkansas. "But since I started to buy Neolin-soled shoes for him I have found that it costs only about a third as much to keep him in shoes."

This is because Neolin Soles are so tough and durable that they wear a very long time. Shoe bills are kept down because you don't need so many pairs.

You can get Neolin-soled shoes at almost any good shoe store. They come in all styles and for all members of the family. Neolin Soles are also available everywhere for re-soles. They are produced by a scientific process to be what soles ought to be: comfortable, waterproof and long-wearing. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guarantee to outwear any other heels.

## STRENGTH FOR YOUNG MOTHERS

How Lydia E. Pinkham's Vegetable Compound Restores Health and Strength.

Lansing, Mich.—"After the birth of my child I was not able to stand on my feet. I was so weak I could not get up. I suffered such pains in my back I could not work or hardly take care of my baby. One of my neighbors recommended Lydia E. Pinkham's Vegetable Compound. I took it and used Lydia E. Pinkham's Sanative Wash, and I got better right away and was soon a new woman and could work hard, and I can recommend these remedies to other young mothers who are weak and ailing as I was."—Mrs. ORA O. BOWERS, 621 S. Hosmer Street, Lansing, Mich.

Women who are in Mrs. Bowers' condition should not continue to suffer from weakness and pain—but profit from her experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years' experience is at your service.

ing, working church—a consecrated church. He said, "If God can find the man or woman, He will bring the revival." Then he made the call, and great numbers of the church members came forward and knelt, filling the space about the altar and dedicated themselves to God.

Tonight at 7:15, the service will begin. It is Friday night with no school tomorrow. The boys and girls and young people can come. The junior choir being trained by Mr. Roper will sing. Everybody is invited.

## SPARTACAN MOVEMENT IS SPREADING

The Hague, Jan. 10.—The Spartacan movement is spreading through the industrial region in Rhennish Westphalia, a dispatch from Dusseldorf reported today.

According to a dispatch from Weimar, a meeting of all Thuringian trade, handicraft and agricultural unions on Jan. 5 decided to create a federal republic from all the Thuringian states, with Erfurt as the capital.

## OBITUARY

Clyde Emerson Sessler, son of Wilbert Ross and Anna L. Sessler, was born near Bowersville, Ohio, May 21st, 1891, and departed this life Dec. 22nd, 1918, at the age of 27 years, 6 months and 21 days. He was the eldest in a family of six children, one sister preceding him in death three years ago. Besides his wife and parents he leaves 1 brother, Vernon, 3 sisters, Goldia, Mary and Opal, and a host of relatives and friends to mourn their loss.

Clyde was married to Mary Belle Hite Dec. 21st, 1911. They have always resided in this community and he was highly esteemed by all who knew him, and while he was not affiliated with any church, he possessed all the qualities of an honest man, and will be greatly missed because of his uprightness and integrity shown to his family and friends.

Funeral services were held Tuesday afternoon at one o'clock, from the home, conducted by Rev. Moore, of Bowersville. The pallbearers were chosen from his friends and neighbors: Frank Campbell, Ollie Phillips, Dana Daniels, Claude Jacks, James Stephens and Jesse Taylor. A male quartet rendered three hymns, which were "Asleep in Jesus," "He Knows it All" and "Beautiful Isle of Somewhere." The body was laid to rest in the Jamestown cemetery.

## SAYS COLD WEATHER BRINGS RETURN OF INFLUENZA

Public Must Be Careful To Avoid A Second Epidemic. Easier To Prevent Than Cure. What To Do.

"Encouraging reports of the fewer cases of influenza in this vicinity should not allow us to relax our vigilance or to become careless in the belief that the danger is all over," says a well known authority. With the coming of cold weather there is apt to be a return of this frightful epidemic and its seriousness will depend on the extent of the precautions, taken by the public, to prevent infection.

When the air is full of influenza germs, you may be constantly breathing them into your nose and throat. But their danger may be avoided and you may make yourself practically immune to infection if you destroy the germ before it actually begins work in your blood.

During the recent serious epidemic, which hit Xenia so hard, most successful results were obtained by many through the simple breathing into the nose, throat and lungs of the medicated air of oil of Hyomei. Probably no better, safer or more sensible precaution against influenza, Grippe, Coughs, Colds, Bronchitis or Catarrh of the nose and throat could be employed than to go now to the nearest drug store and get a complete Hyomei outfit consisting of a bottle of the pure oil of Hyomei and a little vest-pocket sized rubber inhaling device into which a few drops of the oil are poured. Carry this Inhaler with you during the day and each half hour or so put it in your mouth and draw deep breaths of its pure healing germicidal air into the passages of your nose, throat and lungs to destroy any germs that may have found lodgement there. This simple precaution may save you a serious illness and the loss of several weeks work. It is pleasant to use and not at all expensive as the inhaler will last a lifetime and further supplies of the oil of Hyomei can be had at any drug store for a few cents.

Hundreds of people in this vicinity used Hyomei in this way during the recent crisis and avoided danger. They should not neglect it now for the danger is by no means over. adv

## KANY RE-ELECTED SCHOOL BOARD HEAD

Jacob Kany was re-elected president and Joseph Santmyer vice-president of the Board of Education at the annual organization meeting of that body which was held Thursday night. John Bechem was re-elected business manager for the school, clerk and treasurer of the board and trustee officer. Mr. Bechem held this job with its multitudinous duties last year, and he conducted the business in a manner which showed that the board selected the right man for the right place. The office of business manager was created by the board of education last year.

## XENIA BOY WOUNDED IN FRANCE IS HOME

With left little finger and part of the hand gone as the result of being shot away by a piece of shrapnel, Earl Bishir, a former Xenia boy, is back from France. He reached Xenia, Thursday, and is a guest of his sister, Mrs. William Anderson of North West street.

Private Bishir was sent to the front directly after reaching France, and was at St. Mihiel and the Argonne forest. He said that a piece of the shrapnel which hit him, killed Herbert Hite, the only Xenia boy in the outfit with him.

The whole time he was in France, Private Bishir failed to receive any letters or other word from his family, although he said he wrote frequently, and he was very much concerned regarding them.

## LITTLE BOY'S FACE CUT WITH AN AXE

Ahler Earley, little son of Mr. and Mrs. Thurman Earley of South Detroit street, has a gash three inches long in one cheek, caused by a sharp bladed axe which was carelessly swung in the hands of a little companion at the Spring Hill school. A workman who had felled an old tree on the playground, laid aside his axe for a moment, and the child picked it up. He swung it back of him and it struck the Earley boy in the face. Teachers bound up the wound until the arrival of a doctor.

## Will It Make Him Happy to Find His Home Improved?

And it is so easy to do it! Just look at the furniture on this page. Think how a comfortable new rocker would change the aspect of the living room; how a new dining suite would make the dining room more cheerful; and how it would make him feel to have a nice new dresser in his bedroom. Be thankful it is in your power to place it there.

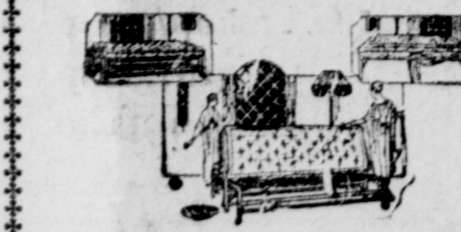

Then look at these low prices. See how little it costs to buy that piece here and there that will mean so little to your purse, and so much to your home. He is deserving of all you can give him. More than ever he will be interested in the home to which he is returning. You can do your share to make that all it should be.
